High Performance Floors Cape was established by Alan Hooper who has been involved in the flooring industry since 1996 owning in partnership and managing various resin flooring concerns, both in Cape Town, South Africa and Qatar in the Middle East.

High Performance Floors Cape based in Bergvliet Cape Town has two contracting teams servicing the Western Cape and surrounding regions.

All contracting staff regularly attends product training and are required to comply with application method standards in order to maintain approved applicator status with the respective suppliers.

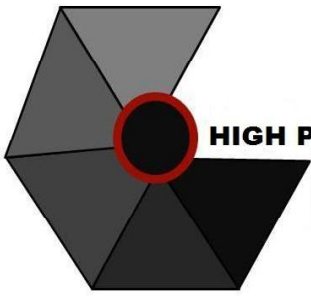

High Performance Floors Cape specialise in the application of seamless resin based flooring systems including anti-bacterial and chemical resistant Polyurethane systems of various thicknesses.

These systems comply with most standards in terms of HACCP compliance, and carry extensive back-to-back guarantees with the product manufacturers.

Industrial floor finishes of a different nature are also installed on a regular basis and these include epoxy coatings and screeds, car park decking, corrosion protection systems.

Decorative resin systems are also installed for residential homes and retail outlets.
